Departmental Strategic Plan
Department of Geography, University of Utah

- **Earth Systems Science**
  - Biogeography
  - Glaciology
  - Hydrology
  - Paleoeocology
  - Geomorphology
  - Climate science

- **Urban/Economic Systems**
  - Urbanization
  - Transportation
  - Economic geography
  - Globalization
  - Public health
  - Natural and technological hazards
  - Demography

- **Geographic Information Science**
  - Geographic information systems (GIS)
  - Remote sensing
  - Cartography and geovisualization
  - Spatial analysis and geocomputation

- **Landscape simulation**
- **Earth systems modeling**
- **Spatial epidemiology**
- **GIS for transportation**
- **Spatial decision support systems**
- **Emergency management**
- **Global climate change**
- **Environmental health analysis**
- **Land use/land cover dynamics**
- **Sustainable development**
- **Human-environment interactions**
- **Global climate change**
- **Natural and technological hazards**
- **Demography**
